

## Ford Transit Van - Global Special Cab Conversion

### Overview

The Ford Transit Van is a long wheelbase and high roof. The conversion was built to the customers special specification with their requirements for an easy cleanable cab interior. The vehicle provided a spacious and versatile cab conversion able to carry 7 personnel and their luggage.

All conversions are of superb build quality carried out by Bernard Mansell's qualified fitters.

For more information, please see the list of conversion key features below. Please call us to discuss your specific conversion requirements, which we are able to carry out on either a new or used vehicle.

### Key features include:

- 4 seated passengers
